MY LOVE OF NATURE, goes right back to my childhood, to the times when I stayed on, my grandparents' farm in Suffolk. My father was in the armed forces, so we were always moving and didn't have a home base for any length of time, but I loved going there. I think it was my grandmother who encouraged me more than anyone: she taught me the names of wild flowers and got me interested in looking at the countryside, so it seemed obvious to go on to do Zoology at University.

I didn't get my first camera until after I'd graduated, when I was due to go diving in Norway and needed a method of recording the sea creatures I would find there. My father didn't know anything about photography, but he bought me an Exacta, which was really quite a good camera for the time, and I went off to take my first pictures of sea anemones and starfish. I became keen very quickly, and learned how to develop and print; obviously I didn't have much money in those days, so I did more black and white photography than colour, but it was all still using the camera very much as a tool to record what I found both by diving and on the shore. I had no ambition at all to be a photographer then, or even for some years afterwards. Unlike many of the wildlife photographers of the time, I trained as a scientist and therefore my way of expressing myself is very different. I've tried from the beginning to produce pictures which are -always biologically correct. There are people who will alter things deliberately: you don't pick up sea creatures from the middle of the shore and take them down to attractive pools at the bottom of the shore without knowing you're doing it. In so doing you're actually falsifying the sort of seaweeds they live on and so on, which may seem unimportant, but it is actually changing the natural surroundings to make them prettier. Unfortunately, many of the people who select pictures are looking for attractive images and, at the end of the day, whether it's truthful or not doesn't really matter to them.

She animal first, and there are many occasions when I've not taken a picture because it would have been too disturbing. Nothing is so important that you have to get that shot; of course, there are cases when it would be very sad if you didn't, but it's not the end of the world. There can be a lot of ignorance in people's behaviour towards wild animals and it's a problem that more and more people are going to wild places: while some animals may get used to cars, they won't get used to people suddenly rushing up to them. The sheer pressure of people, coupled with the fact that there are increasingly fewer places where no-one else has photographed, means that over the years, life has become much more difficult for the professional wildlife photographer.

Nevertheless, wildlife photographs play a very important part in educating people about what is out there and what needs conserving. Although photography can be an enjoyable pastime, as it is to many people, it is also something that plays a very important part in educating young and old alike. Of the qualities it takes to make a good wildlife photographer, patience is perhaps the most obvious - you just have to be prepared to sit it out. I'm actually more patient now because I write more than ever before, and as long as I've got a bit of paper and a pencil, I don't feel I'm wasting my time. And because I photograph such a wide range of things, even if the main target doesn't appear I can probably find something else to concentrate on instead.

LOGICAL REASONING

Instructions: Read carefully the questions and shade the appropriate answer in the space provided for it on the OMR answer sheet.

Marks: Each question carries 2 (two) marks. (Total 50 marks)

151. A college received fifty applications for a certain course. In the qualifying examination, one-tenth of them secured marks in 90-95% range. Within remaining segment, three-fifths of them secured marks in 75-90% range. The rest secured below 75%. To get admission, the following restrictions hold good

- i) No student who has scored below 75% can seek admission to Physics course.
- ii) No student is allowed to opt Physics without opting Mathematics.
- iii) No student is allowed to opt Physics and Astrophysics simultaneously.
- iv) To opt Mathematics or Astrophysics, a student should have scored at least 70% in the qualifying examination.

Which one of the following alternatives is possible ?

- (a) Ninety percent of the applicants are admitted to Physics course. (b) Thirty-five percent of the applicants who are otherwise ineligible to join Physics course are admitted to Mathematics and Astrophysics course.

- (c) Students of Physics course outnumber those of Mathematics.
- (d) Whoever is eligible to study Mathematics is also eligible to study Physics.

152. A tourist can tour utmost four places out of A, B, C, D, E, F and G. Out of four, not more than two can come under holiday tour and at least two must come under business trip. The break up is as follows :

A, B C and D - Business tour E, F and G - Holiday tour. The following restrictions hold good.

- A) If A is included, then both C and G are excluded.
- B) If neither E nor F is included, then B or G or both of them can be included.
- C) If G is included, then D cannot be included. Which one of the following combinations is possible ?
- (a) A, C, E and F (b) B, G and E
- (c) A, D and G (d) A, B and D

153. Under the same fact situation as above, suppose that the following restrictions hold good:

- A) A can be included provided C is included.
- B) E is included provided B or G is included but not both.
- C) C can be included provided at least D or F is excluded. Which one of the following is a certainty ?
- (a) A, B, C, & E (b) A, C, D & F
- (c) B, C, D & E (d) A,B,C&F

154. Four members have to be nominated to a Committee and there are six candidates: A, B, C, D, E and F. The following restrictions hold good :

- A) If A is nominated, then D does not find any place.
- B) If B is nominated, then either E or F has to be nominated, but not both.

C) If C is nominated, then both D and E have to be nominated. Which one of the following is an acceptable combination ?

- (a) A, B, C and E (b) A, B, C and D (c) B, C, D and E (d) B, C, D and F

155. Political turmoil in a country is mainly caused by widespread violence and flawed economic policies of successive governments. If at all this has to be crushed, it can be achieved only by a dictatorial government which rules with iron hand. Therefore, the need of the hour is to elect a government which imposes fresh set of stringent legislations.

The alternatives suggested (not necessarily all), if true, considerably weaken the argument. However, one of them is most forceful. Identify the same.

- (a) It is not the imposition of new legislations which is required, but effective adherence to the existing legislations.
 (b) That government is the best government which governs least.
 (c) It is possible to overcome any evil by educating people.
 (d) Only dialogue in a free society can eradicate political turmoil.

156. Under the same fact situation as above, the alternatives suggested (not necessarily all), if true, significantly strengthen the argument. However, one of them is most forceful. Identify the same.

- (a) Espionage activities by enemy nations, which contribute to political turmoil, can be prevented only if the government is very strong.
 (b) The philosophy behind any economic policy, 'push from bottom, press from top' is to be followed to mitigate violence, and it is not observed.
 (c) Political turmoil is due to corrupt establishment.
 (d) Man is, by nature, a beast. 19

157. Exploitation of poor by rich can be stemmed only if the state exercises complete control over agriculture and industrial production. But state control is

beset by two evils ; corruption and delay. The net result is that if man tries to escape from one evil, then he is trapped by another. Suffering, hence, is inescapable.

The argument presented above seems to imply the following conclusions. Identify the one which is least dubious. Apply common sense.

- (a) If agriculture and industrial production can be abolished, we can free ourselves from all forms of evil
- (b) To avoid evil austere life shall be encouraged
- (c) The gap between poor and rich can be bridged by heavily taxing the rich and passing on the largesse to the poor
- (d) Man is, by nature, dishonest.

158. That the human soul is immaterial is an undisputed fact. Significantly, what is not matter is not spatial and consequently, it is not vulnerable to motion. Evidently, no motion no dissolution. What escapes from dissolution is also free from corruptibility.

Therefore, the human soul is immortal. In this argument, one premiss is

missing. Complete the argument by choosing from the following : (a) Nothing is free from dissolution

- (b) What is incorruptible is immortal
- (c) There is no motion
- (d) Matter does not exist

159. Under the same fact situation as above, which one of the following, if true, affects seriously the argument presented above ?

- (a) Matter is not bound by space
- (b) Matter is indestructible
- (c) Whatever exists is not necessarily affected by motion.
- (d) What is not matter also is vulnerable to motion.

160. Protagonists of human rights vehemently oppose capital punishment. Their opposition stems mainly from three reasons. Firstly, man cannot terminate what he cannot generate. Secondly, the function of punishment is to reform the culprit. Thirdly, a culprit should be given an opportunity to repent. Admittedly, death penalty fails on all three counts. However, the defenders argue that a person is punished because he has to pay for his deeds. Reformation or repentance, according to them, is peripheral. Hence, death penalty is admissible.

Which one of the following is the focus of this debate ?

- (a) Man's rights and privileges
- (b) Nature and purpose of punishment
- (c) Prevention of crime
- (d) Mercy and revenge

161. Since Venus rotates slowly, Fred Whipple thought that like Mercury, Venus keeps one face always towards the Sun. If so, he said that the dark side would be very cold. However, he knew with the help of earlier study carried out by Petit and Nicholson that it was not the case. So, he concluded that the planet must rotate fairly often to keep the darker side warmer.

Which of the following is the original premiss ?

- (a) Slow rotation of Venus
- (b) Temperature of Venus.
- (c) Frequent rotation of Venus
- (d) Equality of the rate of rotation and revolution.

162. Before formulating the laws of motion, Galileo distinguished between mathematical study and empirical study. He, first, theoretically derived the relation between distances and times for uniformly accelerating motion by letting the ball roll a quarter, then half, then two-thirds and so on of the length of the groove and then measured the times on each occasion, which he repeated hundred times. He calculated, based on this study, that the distance travelled equalled the

Which one of the following characterizes Galileo's method?

- (a) Speculation
- (b) Theoretical analysis
- (c) Generalization
- (d) Statistical analysis

163. Read carefully a brief summary of one of the investigations of Sherlock Holmes : "While investigating the murders of Stangerson and Enoch Drebbler he got into conversation with fellow detectives which runs as follows : "The last link My case is complete.... Could

you lay your hands upon those pills". After he got those pills, Holmes cut one of them, dissolved it in water and placed it in front of the terrier. Contrary to his expectations, the animal survived. Though disappointed a bit, he thought for a while and then cut the other pill, dissolved it, added milk and placed before the animal. The moment it licked, the animal died. Those were the pills present at the scenes of crime. Which one of the following aptly describes the method which this passage indicates ?

- (a) Imagination (b) Experiment
(c) Observation (d) Thought experiment

164. There has been much speculation concerning the origin of lunar craters. One hypothesis is that they are the results of the impact of heavy meteors on the surface of the moon while still soft. The most probable explanation is that they were produced by the gases liberated from the rocky matter. While solidification was taking place these gases and water vapors steadily escaped through viscous surface, raising giant bubbles. The reader can easily visualize the process that took place by watching frying of pancakes and noticing the formation of bubbles and craters on their surface.

Which one of the following actually helps us to determine the origin of lunar craters ?

- (a) Analogy (b) Study of foreign body
(c) Cause and effect relation (d) Speculation

165. "Perhaps the earliest work of Archimedes that we have is that on 'Plane Equilibrium'. In this, some fundamental principles of mechanics are set forth as rigorous geometric propositions. The work opens with famous postulate 'Equal weights at equal distances are in equilibrium; equal weights at unequal distances are not in equilibrium, but incline toward the weight at the greater distance'".

According to this passage, which factor or factors determine equilibrium ?

- (a) weight (b) distance
(c) weight & distance (d) equality of weights & distances

166. According to the above passage, which one of the following values can be assigned to the statement 'unequal weights at equal distances are in disequilibrium'?

- (a) true (b) false

(c) highly probable (d) highly improbable

167. According to the above passage, which one of the following values can be assigned to the statement 'inequal weights at inequal distances are in disequilibrium' ?

(a) true (b) false

(c) uncertain (d) unverifiable

168. 'Gregor Mendel in examining pea-plants found two sharply marked races, the tall and the short. He experimentally fertilized flowers of tall plants with pollen of short. The offspring were tall plants. He next let the flowers of this first generation be fertilized with their own pollen. In the following generation, shortness reappeared. Tallness and shortness were distributed not at random but in a definite, constant, and simple ratio: three dominant tall to one recessive short'. Which one of the following aptly describes the distribution of dominant and recessive characteristics ?

(a) systematic (b) equal interval

(c) unpredictable (d) irregular interval'

169. It is said that in his strongly worded reaction to quantum Physics, Einstein remarked, 'God does not play dice' to which Bohr, another great physicist, reacted saying 'Do not tell God what to do'. Bohr, earlier had argued that we can never know what the properties of an isolated quantum system, though we can know the properties of macroscopic objects.

Which one of the following is the focus of their debate ?

(a) the behaviour of God

(b) probabilistic interpretation of the behaviour of quantum object, (c) limits of human knowledge

(d) irrelevance of microcosmic object

170. An efficient and diesel-independent public transport system is essential to the economic development of a nation. Suppose that the government adopts a policy to that effect then there is another favourable result. The pollution of environment is reduced to a greater extent. But, then it has two-pronged backlash. The sale and consequently the production of two and four wheelers reduce to the minimum which in turn render a large number of people jobless.

Cash flow to the treasury, also is adversely affected. Such a step, therefore, is self-defeating unless the government evolves a counter-strategy to nullify the adverse effects.

Which one of the following accurately projects the opinion of an imaginary speaker or author as the case may be of this passage ?

- (a) Abandon the idea of efficient and diesel-independent public transport system
- (b) Ensure sustained cash flow and create better job opportunities by inventing an alternate or more than one alternate
- (c) Public transport system shall be given up
- (d) Maintain production and sale at the same level by offering incentives

171. A moot question to be considered is whether democratic form of government is a boon or bane, no matter what Lincoln might or might not have said. Rather his most (in ?) famous adage, 'by the people, for the people and of the people' misses the most pertinent question; which attitude works behind when a person declares that he is a (or the right ?) candidate to serve the people, and does not hesitate to contest and fight tooth and nail the election, an euphemism for battle with or without bullets. Admittedly, the covert attitude is different from overt attitude. Hardly any one contests the election unwillingly. A contestant is not persuaded by any one, but driven by his own passions and dubious motives. Contrast this picture with Socrates' version ; no honest man willingly takes up the job of ruler. If at all he accepts, he does so for fear of being ruled by one made up of inferior mettle. It is beyond even the wildest imagination, to expect an honest person to contest the election.

Assuming that every statement is true, identify from among the given alternatives the one which strictly follows from the passage.

- (a) No assessment or appraisal of democracy is possible
- (b) Lincoln and Socrates are talking differently
- (c) Actually, Socrates scores over Lincoln on this issue
- (d) Rulers can be honest

172. According to the above passage, which one of the following correctly differentiates Lincoln's and Socrates' analyses ?

- (a) the nature of democracy
- (b) merits and demerits of politicians

- (c) qualities of election
- (d) difference in mind set of respective men

173. Many environmentalists either adopt double standard or do not know what they are talking about. A protagonist of environment, for obvious reasons, ought not to bat for any type of progress because progress without meddling with nature is a myth. But none can live without scientific and technological advance which has singularly made progress possible.. Furthermore, environment includes not just forest wealth and hills, but, animal wealth also. An honest environmentalist is obliged to address the following questions. First, should man in the interest of hygiene, kill any living being be it an insect purported to be harmful or stray

dogs ? After all, this world does not belong to man alone.

Which one of the following runs counter to the spirit of the passage ?

- (a) In the interest of health and cleanliness, our surroundings must be free from disease-spreading bacteria
- (b) Non-violence as a moral principle extends to all living creatures
- (c) Vegetarian food is ideal to all men
- (d) Man should protect his environment because he has to live

174. Does our society need reservation in job ? Before we defend reservation, we must consider some issues. Why do we need reservation? Obviously, reservation is required to lift the downtrodden and thereby achieve equality. How do you achieve this? Every individual, without exception, has a right to receive quality education. It is more so in the case of downtrodden people. Only a good-natured meritorious teacher can impart quality education. Suppose that a person who is neither good natured nor meritorious becomes a teacher thanks to reservation system. Then generations of students suffer.

Suppose that there is some merit in this argument. Then which of the following aptly describes the fall-out of this argument?

- (a) Reservation is individual - centric, but not group - centric
- (b) Reservation, in at least one field, is self-defeating
- (c) The argument is biased
- (d) Education is not required to uplift the downtrodden

175. Under the same fact situation as above, which one of the following helps you to circumvent the situation?

- (a) Replace education with money and make poor rich
- (b) To achieve equality encourage inter-caste marriage
- (c) Only downtrodden people should form the government
- (d) Identify good natured and meritorious people within downtrodden group to make them teachers

REASONING

PART - A

Instructions: Each question contains some basic principles and fact situation in which these basic principles have to be applied. A list of probable decisions and reasons are given.

You have to choose a decision with reasons specified by shading the

Appropriate answer in the space provided for it on the OMR answer sheet.

Marks: Each question carries 3 (three) marks. (Total 30 marks)

176. **Principles:**

- 1) On the death of husband, the widow shall inherit the property of her deceased husband along with children equally.
- 2) A widow can not claim the property of the deceased if on the date when the question of succession opens, she has remarried.
- 3) A female acquiring property in any way has the absolute title to the property.

Apply the above three principles and decide the case of the following fact situation:

Facts : When Sudhir died, he had 1/3rd share of the family property, which the three brothers Rudhir, Sudhir and Yasu inherited from their father, B.

Sudhir died on September 23, 2006 without having any issue. The widow of Sudhir,

Ms. Win remarried on January 1, 2007.

Rudhir and Yasu refused 'Win' the share from Sudhir's portion when Win claimed the entire property belonging to Sudhir on January 30, 2007.

Select your decision from the possible decisions given in list 1 and the appropriate reason from the indicated reasons given in list H given below:

List I - Decisions

- (a) Win cannot inherit the property of Sudhir
- (b) Win can inherit the property of Sudhir

List II - Reasons

- i) Win does not belong to the family
- ii) Win was remarried
- iii) Her claim was on the date of Sudhir's death
- iv) Her claim was submitted after she was remarried

Your decision and reason-

Shade the right decision with reason from the following

- (a) (a) (i) (b) (a) (ii) (c) (b) (iii) (d) (b) (i)

177. Principles:

- 1) If a person commits an act by which death is caused to another person and the act is done with the intention of causing death, that person is liable for murder.
- 2) A person has a right of self defense to the extent of causing death to another provided he apprehends death by the act of the latter.

Facts

Shuva went to a hardware shop owned by Anup. Bargaining on some item led to altercation between the two and Shuva picked up a sharp object and hit at Anup. When Anup started bleeding, his wife Mridula intervened and she was also hit by Shuva and she became unconscious. Finding himself totally cornered, Anup delivered a severe blow to Shuva with a sharp object. Shuva died instantly.

Possible decisions

- a) Anup murdered Shuva.
- b) Anup killed Shuva with the intention of killing to save himself and his wife
- c) Anup killed Shuva without any intention to do so just to save himself and his wife

Probable reasons for the decision

- i) If a person kills another instantly on the spot, the intention to kill is obvious.
- ii) Anup used force apprehending death of himself and his wife.
- iii) Anup used disproportionate force.
- iv) There was nothing to show that Shuva wanted to kill Anup or his wife. Your decision with the reason

- (a) (a) (i) (b) (a) (iii) (c) (c) (ii) (d) (b) (i)

178. Principles:

- 1) Consumable goods which are not fit for consumption are not marketable.
- 2) A consumer shall not suffer on account of unmarketable goods.
- 3) A seller is liable for knowingly selling unmarketable goods.
- 4) A manufacturer shall be liable for the quality of his products. Facts

Ram bought a Coca Cola bottle from Shama's shop. Back at home, the server opened the bottle and poured the drink into the glasses of Ram and his friend Tom. As Tom started drinking, he felt irritation in his throat. Immediately, Ram and Tom took the sample to test and found nitric acid in the content. Ram filed a suit against Shama, Coca Cola company and the bottler, Kishen and Co. Suggested Decisions

- (a) Ram cannot get compensation
- (b) Tom can get compensation

(c) Both Ram and Tom can get compensation

Suggested Reasons

- i) Shama did not know the contents of sealed bottle.
- ii) Ram did not actually suffer though he bought the bottle.
- iii) Tom did not buy the bottle.
- iv) Coca Cola company is responsible since it supplied the concentrate.
- v) Kishen & Co, is responsible since it added water, sugar, etc., and sealed the bottle.
- vi) Shama is responsible for selling the defective product.

Your decision with the reason

(a) (a) (ii) (b) (b) (vi) (c) (c) (v) (d) (c) (iv)

179. Principles

1. If A is asked to do something by B, B is responsible for the act, not A.
2. If A, while acting for B commits a wrong, A is responsible for the wrong, not B.
3. If A is authorised to do something for B, but in the name of A without disclosing B's presence, both A and B may be held liable.

Facts

Somu contracted with Amar whereunder Amar would buy a pumpset to be used in Somu's farm. Such a pumpset was in short supply in the market. Gulab, a dealer, had such a pumpset and he refused to sell it to Amar. Amar threatened Gulab of serious consequences if he fails to part with the pumpset. Gulab filed a complaint against Amar.

Proposed Decision

- (a) Amar alone is liable for the wrong though he acted for Somu.
- (b) Amar is not liable for the wrong, though he is bound by the contract with Somu.
- (c) Somu is bound by the contract and liable for the wrong. (d) Both Somu and Amar are liable for the wrong.

Suggested Reasons

- i) Amar committed the wrong while acting for the benefit of Somu.
- ii) Amar cannot do while acting for Somu something which he cannot do while acting for himself.
- iii) Both Amar and Somu are liable since they are bound by the contract.
- iv) Somu has to be responsible for the act of Amar committed for Somu's benefit.

1. The owner of a land has absolute interest on the property including the contents over and under the property.
2. Water flowing below your land is not yours though you can use it.
3. Any construction on your land belongs to you.
4. All mineral resources below the land belongs to the State. Facts

There is a subterranean water flow under Suresh's land surface. Suresh constructed a huge reservoir and drew all subterranean water to the reservoir. As a result, the wells of all adjacent property owners have gone dry. They demanded that either Suresh must demolish the reservoir or share the reservoir water with them.

Proposed Decision

- (a) Suresh need not demolish the reservoir. (b) Suresh has to demolish the reservoir.
- (c) Suresh has to share the water with his neighbours. (d) The Government can take over the reservoir. Possible reasons

- i) Water cannot be captured by one person for his personal use. ii) The Government must ensure equitable distribution of water. iii) Whatever is under Suresh's land may be used by him.
- iv) Suresh has to respect the rights of others regarding water.

181. Principles

1. An employer shall be liable for the wrongs committed by his employees in the course of employment.
2. Third parties must exercise reasonable care to find out whether a person is actually acting in the course of employment. Facts

Nandan was appointed by Syndicate Bank to collect small savings from its customers spread over in different places on daily basis. Nagamma, a housemaid, was one of such customers making use of Nandan's service. Syndicate Bank after a couple of years terminated Nandan's service. Nagamma, unaware of this fact, was handing over her savings to Nandan who misappropriated them. Nagamma realised this nearly after three months, when she went to the Bank to withdraw money. She filed a complaint against the Bank.

Possible Decision

- (a) Syndicate Bank shall be liable to compensate Nagamma.
- (b) Syndicate Bank shall not be liable to compensate Nagamma. (c) Nagamma has to blame herself for her negligence.

Possible Reasons

- i) Nandan was not acting in the course of employment after the termination of his service.
- ii) A person cannot blame others for his own negligence.
- iii) Nagamma was entitled to be informed by the Bank about Nandan. iv) The Bank is entitled to expect its customers to know actual position.

182. Principles:-

1. A master shall be liable for the fraudulent acts of his servants committed in the course of employment.
2. Whether an act is committed in the course of employment has to be judged

in the context of the case.

3. Both master and third parties must exercise reasonable care in this regard.

Facts

Rama Bhai was an uneducated widow and she opened a 'S.B. account with Syndicate Bank with the help of her nephew by name Keshav who was at that time working as a clerk in the Bank. 'Keshav used to deposit the money of Rama Bhai from time to time' and get the entries done in the passbook. After a year or so, Keshav was dismissed from the service by the Bank. Being unaware of this fact, Rama Bhai continued to hand over her savings to him and Keshav misappropriated them. Rama Bhai realised this only when Keshav disappeared from the scene one day and she sought compensation from the Bank.

Possible Decisions

- a) Syndicate Bank shall be liable to compensate Rama Bhai.
- b) Syndicate Bank shall not be liable to compensate Rama Bhai.
- c) Rama Bhai cannot blame others for her negligence.

Possible Reasons

- i) Keshav was not an employee of the Bank when the fraud" was committed.
- ii) The Bank was not aware of the special arrangement between Rama Bhai and Keshav.
- iii) It is the Bank's duty to take care of vulnerable customers.
- iv) Rama Bhai should have checked about Keshav in her own interest.

183. Principles

1. A person is liable for negligence, if he fails to take care of his neighbour's interest.
2. A neighbour is anyone whose interests should have been foreseeable by a reasonable man while carrying on his activities.

Facts

A cricket match was going on in a closed door stadium. A cricket fan who could not get into the stadium was watching the game by climbing up a nearby tree and sitting there. The cricket ball in the course of the game went out of the stadium and hit this person and injured him. He filed a suit against the organizers.

Possible Decisions

- (a) The organizers are liable to compensate the injured person.
- (b) The organizers are not liable to compensate the injured person'
- (c) The injured person should have avoided the place where he might be hit by

the cricket ball. Possible Reasons

- i) The organizers are responsible for the people inside the stadium.
- ii) The organizers could not have foreseen somebody watching the game by climbing up a tree.
- iii) A person crazy about something must pay the price for that.
- iv) The organizers shall be liable to everybody likely to watch the game.

184. Principles

1. When a person unlawfully interferes in the chattel of another person by which the latter is deprived of its use, the former commits the tort of conversion.
2. Nobody shall enrich himself at other's expense,

Facts

A patient suffering from stomach ailment approached a teaching hospital. He, was diagnosed as suffering from appendicitis and his appendix was removed. He became alright. The hospital however found some unique cells in the appendix and using the cell lines

thereof, it developed drugs of enormous commercial value. When the erstwhile patient came to know about it, he claimed a share in the profit made by the hospital.

Possible decisions

a) The hospital need not share its profits with the patient. b) The hospital may share its profits on ex gratis basis.

C) The hospital shall share its profits with the patient. Possible Reasons

i) The patient, far from being deprived of the use of his appendix, actually benefitted by its removal.

ii) The hospital instead of throwing away the appendix conducted further research on it on its own and the development of drug was the result of its own effort.

iii) The hospital could not have achieved its success without that appendix belonging to the patient.

iv) Everybody must care for and share with others.

185. Principles

1. Copying including attempt to copy in examinations is a serious offence.

2. One shall not take any unauthorised materials into the examination hall. Facts

Rohini, an examinee in PUC., was thoroughly checked while entering into the examination hall. She did not have anything other than authorised materials such as pen, instrument box, etc., with her. As she was writing her paper, an invigilator found close to her feet a bunch of chits.

The invigilator on scrutiny found that the chits contained answers to the paper being written by Rohini. Rohini's answers tallied with the answers in the chits. A charge of copying was levelled against Rohini.

Probable Decisions

a) Rohini shall be punished for copying.

b) Rohini cannot be punished for copying.

Probable Reasons

- i) Something lying near the feet does not mean that the person is in possession of that thing.
- ii) The fact that she was checked thoroughly while getting into the hall must be conclusive.
- iii) Similarities between her answers and the answers in the chit indicate that she used those chits.
- iv) After using those chits, she must have failed to dispose of them properly.
